OBJECTIVE

Highly motivated individual seeking an opportunity to enhance my current computer programming skills.

EDUCATION

- **AS Degree in Computer Science**
  Current - Seattle Central College

- **High School Diploma**
  2012 – Garfield High School

EXPERIENCE

LEETCODE
Practice breaking down coding problems in order to find solutions. Learn to recognize patterns.

PYTHON PROJECTS
Create projects from beginning to end, with final product successfully executing it's intended purpose.

ONLINE CODING COURSES
Took specialized courses on specific programming material. Watched the instructor videos. Worked on follow-along practice problems.

KEY SKILLS

- Persistent problem solver
- Python programming
- Detail oriented
- Work well with others
- Great organization
- Fast learner
- Fluent bilingual English and Spanish

LEADERSHIP

CHURCH YOUTH LEADER – 2010 to current
Prepare and give weekly lessons to a group 20+ people. Organize local events and inform the youth of important district and national dates. Provide mentorship and encouragement. Help them develop ministerial skills.

RIOS PAINTING COMPANY – 2011 to current
Supervise employees when owner is not present. Handle incoming and outgoing client communications. Provide English and Spanish interpretation both orally and written. Purchase materials for interior and exterior projects.
